REPUBLICAN STATE PLAT-FORM.

I. The Republicans of Nevada, in convention assembled, reaffirming their loyalty to the principles of the party as enumerated in their national platform, from Lincoln to Blaine. We believe that liberty is the inalienable right of every man, woman and child, and in the equality of every man before the law, with the unrestricted right of every citizen to cast his vote for whomever he chooses, with the assurance that it will be counted as cast. The preservation of the Union and free government are now recognized as the duty of every citizen of the Republic. We endorse the action of the Republican party in passing in the early days of the last session of Congress a bill to amend the act of March 3, 1877, known as the National Bankruptcy Act, and we earnestly oppose to the doctrine of the so-called anarchists, and we believe in the most perfect protection to each and every individual citizen of the United States, and we condemn any measure tending to relieve our country from the blighting curse of polygamy and polygamous rule in Utah and the surrounding Territories.

II. We are opposed to the further importation of Chinese to this country, or any other foreign laborers, under the contract system, and we favor any plan for the relief of free labor from competition with contract labor, which does not impose upon free labor the expense of supporting convicts in idleness and useless labor. And we favor the adoption of laws preventing the importation of Chinese labor, and other hazardous callings, and such other measures as will improve the material and social welfare of our industrial population. We are earnestly opposed to the doctrine of the so-called anarchists, and we believe in the most perfect protection to each and every individual citizen of the United States, and we condemn any measure tending to relieve our country from the blighting curse of polygamy and polygamous rule in Utah and the surrounding Territories.

III. We condemn the Democratic House of Representatives for refusing to make the necessary appropriations for the construction of a suitable navy for the defense of our commerce and the protection of our citizens at home and abroad, and we particularly condemn it for refusing to make any appropriation for fortifications to protect our extensive seacoast while there was a vast surplus in the Treasury, and thousands of laborers out of employment.

IV. We again declare our constant sympathy with the just and consistent Republican policy and practice of granting out of the nation's abundant resources to the distressed and needy of our wars, whether for the country's defense or for the preservation of the Union. We protest against the removal from office of the worthy and disabled Union soldiers to make way for partisan civilians and ex-Confederates.

POLITICAL.

In the capital of this State, it has used the entire power of the Administration to destroy silver by means of the mint, and by refusing to execute the law and pay out silver for Government dues has kept the metal out of circulation, and various devices it has resorted to the price of silver since the inauguration of President Cleveland more than fifteen per cent. It has closed many of our silver mines, and thrown thousands of honest laborers out of employment.

III. We favor a tariff upon the imported products of low-priced foreign labor, so as to protect the interests of American wage-workers and for the development of American industries. We demand in behalf of our mining interests the maintenance of the present tariff on lead, zinc, soda, and other mineral productions, and in behalf of our wool-growing interests a restoration of the wool tariff of 1857, and we denounce the recent attempt of the Democratic majority in the National House of Representatives to pass the Morrison bill reducing the tariff on the products of our mines and placing wool on the free list.

IV. We believe in American soil for American citizens, and are opposed to non-resident aliens becoming landowners. The public domain should be reserved to the benefit of the settlers, and the accumulation of large tracts or bodies of land in the hands of corporations or individuals should be discouraged, and in the case of land grants to railroad corporations the industrial welfare of the country, and we favor the enactment of State and National laws providing for the settlement of the land, and the establishment of courts of conciliation, which will avoid the waste, loss and ill-feeling resulting from strikes and lock-outs, and the usual expenses of litigation.

V. We denounce the action of the Democratic House of Representatives at its last session, in striking from the bill to compensate the citizens of this State for losses sustained in the Indian war of 1860 all claims for supplies furnished for the suppression of Indian hostilities, and also for services rendered during that memorable struggle in which the lives of a large number of our most respected citizens were sacrificed.

VI. We denounce the pretense of the Democratic party of having sympathy for the cause of local self-government in Ireland while the Democratic House of Representatives, in Committee on the Irish bill, repeatedly refused to endorse that principle. In the months of April and June last that body, by Democratic votes, on several occasions rejected a resolution in favor of a free Parliament for Ireland, which is the following words:

"Resolved, That the House of Representatives earnestly sympathizes with Right Hon. Wm. E. Gladstone and his associates in their efforts to secure a free Parliament for the people of Ireland, and congratulates the people of that island for their successful struggle for the right of local self-government."

Thereby destroying the growth of a liberal spirit throughout Great Britain.

VII. We commend the efforts of Senator Jones and Congressman Woodburn in obtaining an appropriation of \$30,000 for public land surveys in this State, and we condemn the action of the Commissioner of the General Land Office in withholding moneys appropriated for that purpose, and particularly condemn the action of the Commissioner in absconding himself with the appropriation during all the time when appropriations for this State were under consideration by the Senate.

IX. We endorse the action of Senator Jones and Congressman Woodburn in their efforts to suppress polygamy in Utah, and to check the growth of disloyalty to the Government in that Territory, and we fully endorse the principles of the bill introduced for that purpose by Congressman Woodburn. We endorse the action of the Republican Senate in passing in the early days of the last session of Congress a bill to amend the act of March 3, 1877, known as the National Bankruptcy Act, and we earnestly oppose to the doctrine of the so-called anarchists, and we believe in the most perfect protection to each and every individual citizen of the United States, and we condemn any measure tending to relieve our country from the blighting curse of polygamy and polygamous rule in Utah and the surrounding Territories.

X. We are opposed to the further importation of Chinese to this country, or any other foreign laborers, under the contract system, and we favor any plan for the relief of free labor from competition with contract labor, which does not impose upon free labor the expense of supporting convicts in idleness and useless labor. And we favor the adoption of laws preventing the importation of Chinese labor, and other hazardous callings, and such other measures as will improve the material and social welfare of our industrial population. We are earnestly opposed to the doctrine of the so-called anarchists, and we believe in the most perfect protection to each and every individual citizen of the United States, and we condemn any measure tending to relieve our country from the blighting curse of polygamy and polygamous rule in Utah and the surrounding Territories.

XI. The paramount interest of civilization requires that the money used as a circulating medium in this country shall at all times maintain a constant ratio to the increasing population of that country. Contraction of the currency involves all the evils to which a nation can be subjected, among which are robbery of the debtor, stagnation of business, reduction of wages and the enslavement of the masses for the benefit of bondholders and contracting contractors. We denounce the bondholders' conspiracy to debase the silver and contract the money of the country to a single gold standard as a crime against civilization. It would double the obligation of bonds and all other contracts for the payment of money, which now aggregate in the United States the enormous sum of more than one hundred thousand millions of dollars, and thereby make the rich richer and the poor poorer, and impoverish the masses for the benefit of the favored few. We are therefore in favor of the free and unlimited coinage of both gold and silver upon the basis now provided by law.

XII. We condemn the Democratic House of Representatives for refusing to make the necessary appropriations for the construction of a suitable navy for the defense of our commerce and the protection of our citizens at home and abroad, and we particularly condemn it for refusing to make any appropriation for fortifications to protect our extensive seacoast while there was a vast surplus in the Treasury, and thousands of laborers out of employment.

XIII. We again declare our constant sympathy with the just and consistent Republican policy and practice of granting out of the nation's abundant resources to the distressed and needy of our wars, whether for the country's defense or for the preservation of the Union. We protest against the removal from office of the worthy and disabled Union soldiers to make way for partisan civilians and ex-Confederates.

XIV. In common with all loyal people of the land, we mourn the loss to our country of the heroic dead, and especially their great Republican as well as great soldier and statesman, Ulysses S. Grant. His life will forever be an inspiration to us.

POLITICAL.

high and honorable manhood, patriotic devotion to our country and loyalty to the principles of Republicanism which he so fittingly represented and did so much to advance. We shall ever treasure his memory and cherish his deeds.

XIV. It is the duty of this State to maintain free schools, not only in towns and thickly populated sections, but in the rural and sparsely settled districts, and as the education of pupils in the sparsely settled sections of the State is necessarily more expensive per capita than where a large number of pupils can attend the same school, such a division of the school money should be made as will furnish the means of education to all children in the State.

XV. Expenditures beyond the means of private individuals are required for surveys, engineering and the construction of reservoirs, canals and other hydraulic works, for the purpose of irrigation in this State. We, therefore, favor liberal appropriations by Congress for surveys, both hydrographic and topographic, and to certain new waters of this State, which now run to waste in flood time, may be stored and utilized for the purpose of agriculture, to the end that when all the facts are known, suitable aid may be obtained from Congress to enable the Government of the United States to dispose of its lands, and to enable the people to settle upon and occupy the same.

XVII. Resolved, That two years' experience has demonstrated that the present jury law, which compels citizens, at their own expense, without regard to their pecuniary abilities, to witness their own sufferings, to suspend their usual occupations, break their business engagements, travel long distances, and remain for their homes for an uncertain period, and attend upon District Courts as jurors, is a measure of unwise economy, often productive of great hardship and an unjust imposition of the public upon private individuals. We, therefore, demand of the next Legislature such legislation as shall secure to all citizens a fair compensation for all the time which they spend, and full reimbursement for all expenses which they incur in performing the duties of jurors in the District Court.

XVIII. Resolved, That we point with pride and pleasure to the able and brilliant record made by our Senator in Congress, the Hon. John F. Jones, in his watchful and vigilant care of our interests upon all occasions, as are fully shown by his unanswerable speeches in Congress against the reduction of duties upon foreign manufactures and foreign productions, which exposes in a masterly style and in a clear and forcible manner the free-trade doctrine of modern Democracy. His able and exhaustive speeches made upon the re-negotiation of silver, particularly the last speech upon that subject, in which he has displayed more strongly his ability to render the obscure subject intelligent to the most common mind, thereby replacing and upholding the old time-honored American dollar of our fathers in its rightful position as part of our circulating medium and purchasing power, and his logical and overwhelming arguments in favor of the passage of the Chinese Restriction and Exclusion bill, and amendments thereto, during the last Congress.

Resolved, That our able Representative in Congress, the Hon. William Woodburn, deserves the united thanks of the people of this State for his constant zeal and watchful care over the true interests of the people of this State, and that we recognize him as an able statesman, a faithful Representative and an honest man, and we say: "Well done, thou good and faithful servant; renewed honors await thee."

Resolved, That we are unalterably in favor of home rule in Nevada, and believe that the men who pay her taxes and whose homes and interests are identified with the State should control its politics.

AMENDMENT. We believe it is the duty of the National Government to pass laws regulating the great railroad corporation, protecting the people from extortion and unjust discriminations, and we approve the principles of the bill passed by the United States Senate, known as the Cullum bill, and urge our Senators and Representative in Congress to have the same grafted upon our national law. Resolved, That we demand of the next Legislature that it shall pass in accordance with the plan known as the Nebraska plan for the election of United States Senators.

DEMOCRATIC STATE PLAT-FORM.

First—The Democratic party of the State of Nevada, through its representatives in convention assembled, at Elko, on the 9th day of September, 1886, reaffirming its hearty endorsement of the declaration of principles adopted by the National Democratic party at the city of Chicago in 1884, among which, upon the question of coinage and currency, are the following plain statements of Democratic faith and the principles upon which the party appealed to the suffrages of the people of the several States in the late Presidential campaign.

"We believe in honest money—the gold and silver coinage of the Constitution, and a circulating medium convertible into such money without loss."

"We therefore demand that good faith shall be observed with the people by the Democratic Administration by religiously adhering to the money plank, as it does to every other plank of the Chicago platform."

Second—President Cleveland, in his wise conservative and patriotic administration of our public affairs, both foreign and domestic, challenges our highest admiration, except in following the beaten path of his Republican predecessors and the policy of the Republican party on the silver question, in disregard of the cherished principles of the National Democratic party.

Third—We demand of the Administration, at Washington, that it shall second the efforts of the Democratic Representatives in Congress to give the people free coinage of silver, notwithstanding the formidable combination existing between the gold rings, National Banks and the National Republican party to maintain the single gold standard. The action of the Republican administration in refusing to insert a silver plank in their platform deserves the condemnation of the silver-producing people of the mining regions of the Pacific Coast.

Fourth—We endorse the policy of applying the surplus in the National Treasury, as fast as it may accumulate, to the payment of the National debt, retiring as rapidly as practicable the National Bank circulation, and the direct issue by the National Government of legal tender Treasury notes, gold and silver coin and coin certificates.

Fifth—We arraign the Republican party before the bar of an enlightened public opinion for its high crime committed against the public peace, and against the best interests of the white laboring classes of both sexes, by its inviting and encouraging the influx of Asiatic hordes to our shores under treaty stipulations and under the crazy shibboleth of "The Fatherhood of God and the Brotherhood of Man," until there are planted among the people of the Pacific States and Territories, like so many leeches sucking the life-blood of our substance, 150,000 Chinese coolies.

Sixth—We demand the immediate abrogation of the Burlingame treaty and the total suppression of Chinese immigration to America, and we favor legislation providing for the deportation of all Chinese in the United States, and we recommend the exclusive patronage of white labor and its produce.

Seventh—The introduction by Senator Fair of his Chinese Restriction bill, and his success in passing the same deserves the approval of the entire people of the Pacific Coast.

Eighth—A bitter rage for the welfare of the workingmen being inseparably connected with the integrity of our institutions, the laboring classes should be protected in their efforts peaceably to assert their rights when endangered by aggregated capital, or by the importation of foreigners and aliens under contract to perform labor, or by the involuntary or coerced labor of Chinese.

POLITICAL.

Ninth—We are in favor of liberal wages and free labor. All associations formed for the purpose of developing intelligence, promoting and protecting the interests of the laborer and mechanic, and to enable successfully to contend for the maintenance of their rights by peaceful and efficient means against powerful and oppressive combinations, should be encouraged and especially sanctioned by law; and the Democratic party of Nevada is in favor of the enactment of liberal laws fostering and encouraging the formation of co-operative and protective societies among all classes of laboring men.

Tenth—We approve the action of the Democratic House of Congress in forfeiting and restoring to the public domain for public lands for actual settlers nearly a hundred millions of acres of unearned lands heretofore granted by Republican Congresses to railroad corporations, and we also approve the Act preventing alien ownership of large tracts of public lands in the United States.

Eleventh—We commend the policy of the present Administration in strictly enforcing the tariff laws, the beneficial effect of which is so happily illustrated by the fact that the great wool-growers of Nevada are in favor of the enactment of liberal laws fostering and encouraging the formation of co-operative and protective societies among all classes of laboring men.

Twelfth—In behalf of the mining industry of this State, and of the miner—the pioneer of civilization on this coast—as well as of the whole people of Nevada, we earnestly recommend the authorities at Washington the immediate opening and permanent running of the United States Mint at Carson City, to the end that our miners may be relieved from the necessary and burdensome expense of shipping their bullion three thousand miles away for market, and we hereby commend the efforts of our miners to accomplish this result.

Thirteenth—Generous provision, State and county, should be made for the support of public schools. They should be established for the benefit of all our people, and should be maintained entirely free from religious or political bias. We believe in thorough and efficient school education, and are in favor of such legislation as will best promote the educational interests of our State.

Fourteenth—The depression of our mining interests, a prominent factor in our revenue resources, necessitates the strictest economy in all branches of our government, both State and county, and we demand that our public officers that all possible retrenchments be made consistent with the proper discharge of the duties of their several offices.

Fifteenth—In common with the Democracy of the country we express our sympathy with Ireland in her great struggle for Home Rule. The friends of liberty throughout the world are deeply interested in the effort which the supporters of Gladstone and Parnell are now making to give the right to govern themselves to the long-suffering and greatly wronged Irish people, and we sincerely hope that the struggle of Ireland for her just rights shall be successful.

Resolved, That in common with the Democracy of the whole country we sincerely lament the loss of the late Vice-President of the United States, Thomas A. Hendricks, the honest and trusted leader, whose conciliatory counsel and patriotic teachings have become the common heritage of our common country. We also profoundly deplore that during a brief period of time the Nation, and particularly the Democratic party, has suffered the loss of four other eminent citizens in the persons of our public leader George B. McClellan, the pure and wise statesman, Horatio Seymour, the superb hero, General Winfield Scott Hancock, and more recently the demise of this discerning statesman, sagacious counselor and profound political philosopher, Samuel J. Tilden.

Bass in California.

The Sacramento Bee says: That delicious and very gamey fish of the perch family, bass, was planted in California waters some six or eight years ago by the Fish Commissioners as an experiment. Their scheme has proved highly satisfactory, for many fine specimens have been caught in various parts of the State. It was not known, however, that fish of this variety could be found in the neighborhood of Sacramento. Last night, while fishing at Fisherman's Lake, B. D. Cooper caught several fine striped bass, averaging two pounds each in weight. They were beauties, the flesh is firm, and it is probable that there will be a special effort made by the anglers to catch that species. Old fishermen, who followed the sport in the East, where the bass are found in great numbers, say that there is more excitement in catching one bass than there is in hooking a whole string of trout. A bass will fight. He grabs a fish line back of the hook and snags up and down with it, plunges out of the water, and in many other ways tantalizes the man holding the pole. He is given all the "silk" he wants, and finally he tires, takes the bait into his mouth and dives for the lower regions. This is the supreme moment for the angler, and if he is an expert he lands his saucy finny friends. Such common fish as we have been pulling from the Sacramento river will have to emigrate to the mud, for striped bass will be the rage in angling circles.

NEVADA PRODUCE.—The Austin Revell says:

It is only within the past two or three years that Nevada fruit and produce has been recognized as taking the lead. Fruits of all kinds raised in this State for some reason have a better flavor than those imported. Nearly all the vegetables and especially potatoes, which are raised here, are far ahead of anything that is obtained from California. Ranchers who are awake to this fact have been setting out fruit trees, vines, etc., and many of them now are reaping rich returns for their labor and foresight. Mr. Irwin, of Nye county, has a fine fruit producing ranch of about sixty acres. Two years ago he had 100 pear, 100 cherry, 1,000 peach, 150 plum and 1,000 apple trees growing on his ranch, besides raspberries, currants, gooseberries and apricots. Henry Schmittlein has raised some fine peaches this year, and the branches of his plum trees are actually breaking down under their burden of fruit. All the ranchers of this section should realize these facts and each year set out a few fruit trees, so that in a few years instead of importing we would be able to export. The country is a good one with a climate that cannot be beaten and with resources, both mineral and agricultural, which have as yet only begun to be developed.

The New One Dollar Silver Certificate

The United States Treasurer has issued the following notice in regard to the new \$1 silver certificates:

Owing to the great demand for other denominations of notes the Treasurer of the United States is unable to supply \$1 notes except in small amounts. In order to satisfy as far as possible the public demands, it has been decided to furnish from this office these in sums of \$1,000 to each bank making application and at the same time depositing that sum with the Assistant Treasurer at New York. Upon receipt of the certificate of deposit a like sum will be forwarded at the expense of the banks making application. In order to effect an equitable distribution, as far as possible, applicants will obtain these notes in the order in which the deposits are made at the Sub Treasury in New York. No second application will be granted until the supply of notes is equal to all the current demands. The maximum amount of these certificates that the Treasury can furnish daily will not exceed \$80,000, and it is suggested by the Acting Treasurer that it will be well for banks to ascertain from their New York correspondents the probable time when they will receive shipments.

The Intellectual Johnny.

Merchant Traveler.

Johnny's mother was rather proud of her skill in the hair-cutting line, and was very fond of showing it, much to Johnny's disgust. Being 9 years old he was disposed to patronize the barber. The other day, when his mother was making the preparations which usually preceded the terrible ordeal which he knew was to make him the laughing stock of his playmates, he remarked:

"Mamma, I'm not going to have my hair cut to-day."

"What do you mean, Johnny?"

"I can't allow it, ma. I'm really afraid. It's dangerous."

"What on earth are you afraid of, child?"

"Why, mama," said the precocious youngster, backing into a corner, "I'm surprised at you. Didn't you ever hear what happened to Sampson because he let a woman cut his hair? You ought to read your Bible."

His mother was so thoroughly astonished that he made his escape to the street before she could say another word.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-awf-lv.

Announcements to stakes must be made to the secretary on or before the first day of August. Entries for the purses must be made: Monday's races on the Saturday preceding; Tuesday's races on Monday; Wednesday's

Friday's races, on Wednesday, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 5 p. m. Horses entered in purses can only be drawn by the consent of the Judges.

The rules of the Pacific Blood Horse Association will govern running races. All horses entered for State purses must be owned and kept in Nevada and California, east of the Sierra Nevada, for six months prior to day of race.

Entries to all trotting races will close September 1st, with the Secretary. Five or more to enter and three or more to serve the right to hold a least number than the National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified; five to enter and three to start. But the Board reserves the right to hold a least number than five to fill, by the withdrawal of a proportionate amount of the purse. Entrance fee, 10 per cent, on purse, to accompany nomination.

Trotting and pacing purses divided at the rate of 60 per cent to first horse, 25 per cent to second, 15 per cent to third, and 10 per cent to fourth.

National Association Rules to govern trotting, but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a series of heats between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear they may contest for the entrance money to be divided as follows: 65% to the first and 35% to the second.

In all the foregoing stakes the declarations are void unless accompanied by the money.

Please observe that, in the above stakes, declarations are permitted for a small forfeit.

In all races entries not declared out by 6 p. m. of the day preceding the race shall be required to wear caps of distinct colors, which must be named in their entries.

Each day's races will commence promptly at one o'clock p. m.

All entries must be directed to C. H. Stoddard, Secretary of the Society.

PARKER'S NEW MAP OF NEVADA.

—THIS NEW AND BEAUTIFUL—

MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.

John W. Parker,
Reno, Nevada.

REPUBLICAN COUNTY PLAT-

FORM.

The Republicans of Washoe County, in convention assembled, present the following declaration of principles and purposes, and pledge themselves to the non-nominees of this Convention to their faithful and earnest support and endorsement.

We denounce the attempt of the present administration to further restrict the suffrage of silver and change the measure of standard values from gold and silver to gold alone, as an act of monstrous injustice to the mining interests of our country, and demand that double standard be established of both gold and silver, and be maintained as the basis of our money system, as established by the Constitution of the United States.

We, as a party, are most emphatically opposed to the further immigration of Chinese, believing them to be a class of laborers detrimental to American institutions, and we are in favor of the legal expulsion of those with which the country is now afflicted.

We denounce the "sham" policy of retrenchment and reform as carried out by the present administration, and which has closed our Mining public land surveys, and damaged the material interests of the State in such a manner, as to lead us to believe that the people of Nevada have been selected out for punishment because they had the courage to vote their convictions in the campaign of 1886.

We are in favor of a home man for United States Senator, and our representatives to the Senate and Assembly are instructed to use all honorable means to elect a gentleman to the office who is a Nevada in heart, interests, and actual residence instead of a man like Senator Fair, whose whole interest and residence are in California.

The present depressed condition of this State demands rigid economy in all public affairs, and particularly those for Legislative offices, and an earnest effort to reduce the expenses of both the State and County governments, and to relieve the people of the present burdensome and vexatious taxation.

Resolved, That gold and silver have been recognized as money from time immemorial, because each could be exchanged at the Mint of the civilized world for coin. Silver did not decline in market so long as the mint of any nation in Europe or America would receive it in exchange for money. We favor the immediate passage of an act of Congress providing for the free coinage of both gold and silver, so that the owner of either of these metals may have it exchanged at our mints at 50

standard rates for coin of gold or silver certificates as the case may be.

We endorse the earnest and able efforts of Senator Jones and Congressman Woodburn to prevent the Administration from depriving the people of this State of their usual and necessary mail facilities, and their efforts to keep open our mint and to furnish the people of this State with the usual means of carrying on a fair and impartial administration of public affairs, and we particularly commend them for their able efforts to restore silver to its original place as money and to defeat the conspiracy of the bondholders to contract the money to the single gold standard and thereby double the obligations of contracts and inflict upon the laboring masses such enormous burdens as to reduce them to a condition of slavery.

Resolved, That we regret the failure of Senator Fair to co-operate with his colleagues from this State in their efforts to restore silver to par and thereby prevent the Administration from State and defeat the bondholders' conspiracy to demoralize that metal. It is unfortunate that Senator Fair's private business was so pressing as to render him absent from his seat in the Senate at all times when any question affecting the use of money has been discussed or voted upon, since he has been a member of the United States Senate, and his private business or interest may have been, we cannot excuse his silence on the great issue with regard to silver, in which our State is so vitally interested, and which was elected to foster and protect. We charge him with
